

Workforce Safety and Management Solutions

Gallagher security solutions support your business requirements for a wide range of regulation standards.

security.gallagher.com

Be safe, healthy and compliant

Our solutions don't stop at the fence line or the door.

As a leading provider of integrated access control and perimeter solutions, we go one step further to make intelligent features for compliance with:

- Health and safety standards
- Industry regulations
- Business policy

Our range of workforce safety and management solutions come in a range of optional licensed features that easily integrate into your Gallagher Command Centre platform.

"Thanks to Gallagher's Tag Board Solution we've significantly improved our previous paper based system and reduced our emergency evacuations from 30 - 40 minutes to under 3.4 minutes"

- **Tasmanian Alkaloids, Australia**

Competency Module

Product number: 2A8959

Achieve business compliance and reduce corporate risk with every access control decision. At the door determine a person's suitability for access including their training and certification needs, and fitness for work. The type of competency reminders you can display include specialized certifications for example: 'You cannot access this zone because your first aid competency has expired - please report to security!'

Alcolizer Integration

Product number: C12673

Mitigate the serious risks associated with employees working under the influence of alcohol. The Alcolizer Integration provides a practical way to detect breath alcohol levels and prevent access to equipment or areas as necessary.

Regulated Zones

Product number: C12639

Fatigue & Exposure Management

Manage the risk associated with workplace fatigue and exposure; hazards that you can moderate with Gallagher. Be confident that your workforce is performing at optimum and reduce unnecessary downtime or accidents by identifying individuals who may be at risk of fatigue or over exposure.

Reporting

Have the ability to monitor time-on-site for all visitors, employees, and contractor cardholders within a configured time zone. Also monitor employee and contractor cardholder minimum break periods between shifts and accumulated time-on-site across multiple shifts and zones.

Tag Boards

Product number: C12565

Location Monitoring

Know all your employees are accounted for at all times in a range of evacuation situations. At a glance get a detailed view of all personnel in an area, and quickly and easily identify where people are on site.

Tag Board Display Utility

Always protect and know exactly where your staff are located when working in hazardous zones with Command Centre's display screen interface. Ideal for locating exactly where people are in unsafe areas.

Be proactive, with cardholder management

"In buildings where we have purely installed the Gallagher system and nothing else we are achieving a 30% energy saving" - **St Peter's School, New Zealand**

Cardholder Display

Product number: C12599

Know 'why' cardholders are denied access on the spot with Cardholder Display. Arm your workforce with the information they need to proactively manage their access on site and allow them to take pre-emptive action.

Quick Print Labelling

Product number: C12597

Quickly and easily print information straight from the Command Centre competency tile to create labels displaying cardholder information.

Random Cardholder Selection

Product number: C12583

Automatically select random personnel for effective workforce, risk and compliance. Using random personnel selection, you can ensure a fair and broad group of staff are checked when required.

“City of Dreams needed a system that catered well to growth, particularly in the areas of people management and access control” - **Melco Crown Entertainment, Macau**

Action On Access

Product number: C12641

Know exactly where all cardholders are, at all times with designated readers that can enable or disable cardholder actions, including access to restricted areas, at the door. A very useful way of managing contractors and temporary workers time and entry on site.

Dynamic Exit Zoning

Product number: C12591

One swipe at the start of a journey and cardholders can be transported through multiple access zones. Cardholders will always be accounted for in Command Centre via the vehicle they're traveling in, without the need to badge at each access gate they travel through.

Mobile Cardholder Challenge

Product number: C12701

Give guards the opportunity to randomly check a cardholder's details by badging their card against a mobile device: Does the cardholder have access to this zone? Is the card valid? Are they actually a cardholder?

Be efficient, streamline your business

Building Automation and Control

Product number: C12689

Our BACnet interface allows you to run your lighting and heating only when people are in the room. Create a central repository for all of your alarm management to monitor and control your HVAC (Heating, Ventilation, and Air Conditioning) and other business management systems through Command Centre.

Visitor Management Web Service API

Product number: C12671

Impress your visitors and give them a professional greeting with Gallagher's Visitor Management System. The Web Service supports pre-registration and visit creation from a 3rd party application, ensuring smooth processing upon arrival at reception.

Cardholder Management Web Service API

Product number: C12643

Allow other systems to create, modify, remove cardholders (including access) within Command Centre using Gallagher's Cardholder Web features.

Cardholder Change Tracking API

Product number: C12707

Notify and update your business systems when changes are made to cardholders' details in Command Centre.

Enterprise Data Interface (EDI)

Product numbers: 2A8961 & 2A8962

The EDI tool allows synchronization of cardholder data from external systems via delimited flat file (ie. CSV), MSSQL and Oracle tables & views. A simple & intuitive graphical configuration makes cardholder transfers easy.

Booking Interface

Product number: C12625

Scheduling and timetabling for rooms and resources including lecture halls, laboratories and more. Via an online booking platform, rooms can be searched, bookings can be made or rescheduled, and course timetables can be planned and auto-scheduled.

Multi-Server

Product number: 2A8957

Streamline the security of multiple sites, at multiple locations, through Command Centre. With Multi-Server architecture in place deliver cross-operational cover by configuring a site to control and monitor another site, from one place; it's easy.

Prepaid Car Parking

Product number: C12613

A solution for car parks, but not restricted just to them. Enable employee access cards with credit that reduces when badged at specific access points from car parks to cafeterias.

Elevator Integrations

Allow Command Centre to control access to floors from elevator cars with Gallagher's Elevator High Level Interfaces (HLI).

Video Integrations

Integrate and monitor most of the world-leading video systems through Command Centre. Let your operators use a single system in the control room that will increase efficiencies and reduce costs.

ASCII Interface

Product numbers: C12669 & C12683

Our ASCII interface provides a generic means to interface to systems such as fire panels, paging systems, nurse call, mobile duress, and legacy matrix switchers.

Professional services

Gallagher's team of experienced software architects, engineers and customer solution experts are available to help consult on a range of requirements from system audits and database conversions to software upgrades.

Gallagher works closely with a carefully selected, and certified group of Channel Partners who have direct contact with our Professional Service staff.

For specialized guidance on making the most of your Command Centre system and the optional licensed features available to you, contact your local Gallagher Certified Channel Partner.
